

CAUVERY RESERVOIR WORKS.

Notice is hereby given that sealed tenders will be received by the undersigned up to 5 P.M. on the 14th October 1916, for the supply of the undermentioned articles, required for the use of the North and South Banks of the Cauvery Reservoir Works, immediately on acceptance of tender.

2. An approximate estimate of quantities required is given against each item in the lists.

3. Tenders should be submitted in printed forms which may be obtained from the undersigned's office and accompanied by a list in the form given below, showing the rate at which the different items specified in the list will be supplied.

4. Each tender must be accompanied by a cash deposit of Rs. 200 as earnest money, and be superscribed "Tenders for the supply of cast iron pipes" and in default of which, tenders will be rejected. The earnest money of the unsuccessful tenderers will be refunded.

5. The final acceptance of any tender will rest with the Superintendent of Dam Works who does not bind himself to accept the lowest or any tender or assign any reason whatever, for the rejection of any tender.

6. The name of the successful competitor, whose tender has been accepted, will be posted on the notice board in the undersigned's office, and intimated to him in the usual course. No enquiries regarding the acceptance or rejection of a tender will receive attention.

7. The rate tendered for each item shall include cost of delivery free on rails at Fren Rocks and Paschimavahini Railway Stations, Madras and Southern Mahratta Railway.

8. One order for the full quantity will be placed with the successful tenderer as the articles are required and the supply of the order in full must be completed within three weeks from date on which such an order is placed; failing which, the unexecuted portion of the order will be cancelled and orders placed elsewhere and the earnest money deposited by the successful competitor forfeited as a penalty for the non-execution of the order in full.

List of cast iron pipes required for the reservoir low level channels sluices.
